*Explanation of the mark for optional movements for the Freestyle to Music classes:

The basic principle is to give a bonus to riders performing the optional movements without penalizing those who do not perform them. Consequently, the score of an optional figure is not taken into account if it does not receive at least 5 marks. In fact a 1-2-3-4 allows 0 bonus points, a 5 allows 1 point, a 6 = 2 points, a 7 = 3 points etc.

To obtain the percentages and in order not to penalize (in the result in %) riders not performing the optional movements, the latter are not affected by a coefficient counting in the final division for the calculation of the percentage.

Calculation of percentages by the judges – ((technical points + bonus points + artistic points) / 420*100

Calculation of final percentages = ((total points from each judge + points for dress if obtained) which divides ((420 x number of judges) + (20 points))*100

Theoretically, a rider performing to perfection the technical, artistic and optional movements obtains more than 100%.

In practice, two riders receiving 6's overall, with 3 judges, one performing the optional movements, the other not, would obtain respectively 806 points (62.18% and 776 points (60.7%).
